

Maxxim 15-Year Performance Warranty

Maxxim's 15-Year Certified Performance Warrantee means that each module, patch panel and RJ45 jack installed in a channel using Maxxim's standard Cat5e/Cat6 or Cat6a cable that is defined by the ANSI/TIA/EIA 568B-2.1 Cat5e / Cat6 and Cat6a ratified standards shall meet and exceed the Attenuation-to-Crosstalk (ACR), Attenuation, Impedance and Near-end Crosstalk (NEXT) specification for these standards for a period of 15 years.

All such installations must be installed by a Cat5e/Cat6 or Cat6a approved and trained installer. All testing must be carried out by the approved installer using Level3 field testing equipment with the appropriate manufacturer calibration up to date and ability to supply reports and proof of proper installation.

The above warranty does not extend to products that have been subject to negligence, accident, improper use, improper installation or improper storage causing diminished performance of the product.

Maxxim is produced in a factory with ISO 9001:200 and IECQ certification as is proof of excellent standards during manufacturing.

All Maxxim connectivity products has passed 3P (3rd Party Testing) testing standards for their categories and is UL Listed. All products are tested and conform to the highest standards.

Maxxim is Selected For Quality.

The logo features the word "maxxim" in a bold, sans-serif font. The "max" portion is in grey, the "x" is in a vibrant green, and the "im" portion is in black. A thin horizontal line is positioned below the "max" part. Below the entire word "maxxim", the tagline "Selected for Quality" is written in a smaller, green, sans-serif font.
